

ALUZION

ALUMINUM ARCHITECTURAL SIDING

- Heavy-Duty .032" Aluminum
- UV-resistant, non-flammable, and corrosion-resistant
- Non-porous, insect-resistant, and low-maintenance
- Lightweight and easy to install
- Vertical, horizontal, and diagonal installation
- 100% aluminum and recyclable

MULTI-TONE WILLOW

MULTI-TONE LIGHT OAK

Crafted from premium 0.032" gauge aluminum, ALUZION siding combines durability, elegance, and performance. Paired with our patented INO-CLIP fastening system, it offers increased resistance to harsh climates and, thanks to its rigidity and light weight, allows for precise, effortless installation.

Available in a wide range of rich finishes, the 5" SMOOTH PLANK siding adapts perfectly to any architectural vision, whether you are looking for a bold, modern style or a warm, traditional aesthetic. It delivers a sleek, modern finish with clean lines and harmonious sophistication.
